PATENT TRADEMARK OFFICE

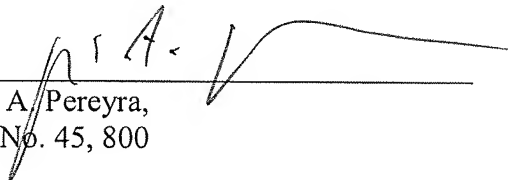

Dear Sir:

Tim Scull and Bill Harmon thank Examiner Cam T. Truong for the in-person interview conducted on October 25, 2006. During the interview, independent claim 1 was discussed. Specifically, the definition of the term "shadow volume," recited in claim 1 was discussed with Examiner Truong in relation to the disclosures of the Shen reference (USPN 6,611,850). Applicant's representative argued that the Shen reference does not teach or suggest associating a timestamp with a shadow volume as is recited in claim 1. No agreement was reached on allowance of any claims.

Respectfully submitted,
